**ARA/Enterprise Information Enables Defense Acquisition through Data**
Requires Culture Change – No Simple Chore
Data is the Hook
Technology Connects
We’re Here to Help
How We Support the Business

Data Access – A single, intuitive interface for all data
• 4 Reporting and Document-storage Capabilities
• 7 Analysis Support Capabilities
• APIs for developers/users of raw data
• Support to help users make the most of the data

Data Management – Flexible technical approach for understanding, sharing, and protecting data
• APIs to support DAVE functions
• Security and access

Data Stewardship – Agreement and accountability for definitions and authoritative data
• 582 Acquisition data elements under governance
“In God we trust, all others must bring Data”

W. Edwards Deming

Leadership Is Committed to Data
